Ministry of Industry, Commerce & Employment

INVEST BHUTAN SUMMIT 2027

A Rare Window Into Bhutan's Economy

A message from the Ministry of Industry, Commerce & Employment

Bhutan has long measured progress by Gross National Happiness rather than growth alone, a philosophy that has kept our institutions stable, our environment protected, and our development deliberate. That same philosophy now shapes an economy that is actively opening to the world.

The Invest Bhutan Summit 2027 is Bhutan's initiative to provide platform for foreign investors to engage directly with local Bhutanese participants, meet the ministries and agencies that will be your long-term partners, and evaluate a curated pipeline of over twenty investment-ready projects; from green energy and tourism to digital services and the new Gelephu Mindfulness City special administrative region.

We invite you to Thimphu, Bhutan this February to see, first-hand, why Bhutan is one of the last places where responsible capital and untouched opportunity meet.

Ministry of Industry, Commerce & Employment

WHY BHUTAN?

- Strategically located in the region home to over 2 billion people
- One of the fastest growing economies with an average GDP growth of 7.5%
- Availability of reliable clean and green energy at a competitive price (USD 0.03 per kwh)
- Pristine environment and vibrant culture
- The presence of an educated English speaking workforce
- Strong political will to pursue inclusive economic transformation through innovation and technology.
- Enjoys political stability and is one of the most peaceful countries in the world.
- Embarked on the path of becoming a High Income GNH Economy by 2034
- Goal of increasing GDP to USD 5 billion by 2029
- The least corrupt in South Asia (ranked 1st) & 3 least corrupt in Asia.
